Re: Request Rescission of Section 10, "Compliance Schedules," of the Clark County Air Quality Regulations from the Nevada State Implementation Plan

Dear Mr. Lovato:

The Clark County Board of County Commissioners recently approved the repeal of Section 10 from the Clark County Air Quality Regulations; therefore, the Clark County Department of Air Quality (DAQ) requests this regulation be removed from the Nevada State Implementation Plan (SIP). This action constitutes a SIP revision. The Board's action was conducted consistent with the requirements of 40 CFR § 51.102 and Appendix V of 40 CFR 51.

The Board's rulemaking action relative to the Nevada SIP consisted of the following:

- Repeal of Section 10, "Compliance Schedules."

The U.S. Environmental Protection Agency (EPA) approved the inclusion of Section 10 in the Nevada SIP on December 28, 1978. Over time, this rule has become obsolete, replaced by compliance plans the source submits to the DAQ Compliance and Enforcement Division manager for review. When all parties reach agreement on a plan, it is approved by the Hearing Officer and is made enforceable in the terms and conditions of the operating permit by a permit revision. The process outlined by Section 10 has not been used since supervision of the air quality program moved from Clark County Health District to Clark County.

Pursuant to 40 CFR § 51.103, this rule is being submitted with the intent that the Nevada Division of Environmental Protection (NDEP) forward the package to EPA's Region 9 office for incorporation into the Nevada SIP. EPA has requested this updated submittal to provide a more complete record than the previously submitted letter provides.

Greg Lovato, Administrator
